Shielded All Thread Rods

**** TIME SAVER ****

3/8"-16, 1/2"-13 & 5/8"-10 Connections

The all thread rod is shielded with an FDA-approved LDPE Sheath. There are no openings between the shield and the rod. To expose threads, the LDPE shield can be stripped back with a utility knife. Rod's are available in Zinc Plated or Stainless Steel materials. Sold in 6' lengths; custom lengths are available. Pages 23-24

UNIQUE

Drainable Riser Hangers

PVC Coated Electrical Conduit & Electrical Metallic Tubing (EMT)

When supporting riser lines, the insert's sloped sides eliminates flat surfaces. This attribute facilitates the hanger's drainability and cleanability (Available on all CSH style hangers)

U.S. Pat. No. US 9,033,289 B2

Process Hex Hanger Figure PHH

- * Drainable exterior
 - * Wipe down cleanable
 - * No exposed threads
 - * Zero entrapping crevices
 - * Self draining on riser lines
 - * Carriage bolt locks into hardware frame's square hole, allowing a single tool to tighten acorn nuts
 - * Carriage bolts are reversible, allowing rounded drainable surfaces to be located on hangers topside
- Pages 3-4

U.S. Pat. No. US 9,038,968 B2
